Open-Source Intelligence (OSINT)

The Venue: Amman
Implementing Agency: Sustainable Vision for Consulting and Training
Financial Presentation: Page No. (4)

Date: 10/9/2023–14/9/2023
Number of hours: 25 Hours

General objective

This is a foundational course in open-source intelligence (OSINT) gathering that will move quickly through many areas of the field. While the course is an entry point for people wanting to learn about OSINT, the concepts and tools taught are far from basic. The goal is to provide the foundational knowledge for students to be successful in their fields, whether they are cyber defenders, threat intelligence analysts, private investigators, insurance fraud investigators, intelligence analysts, law enforcement personnel, or people who are curious about OSINT. Teaches effective methods to find the unlinked data. You will learn real-world skills and techniques to scour the massive amounts of data found on the Internet.

Sub-goals

- Create an OSINT process.
- Conduct OSINT investigations in support of a wide range of customers.
- Understand the data collection life cycle.
- Create a secure platform for data collection.
- Analyze customer collection requirements.
- Capture and record data.
- Create sock puppet accounts.
- Harvest web data.
- Perform searches for people.
- Access social media data.
- Assess a remote location using online cameras and maps.
- Examine geolocated social media.
- Research businesses.
- Collect data from the dark web.

Target group

- Business Leader.
